

POLYMER

Thermoplastic Fabrication

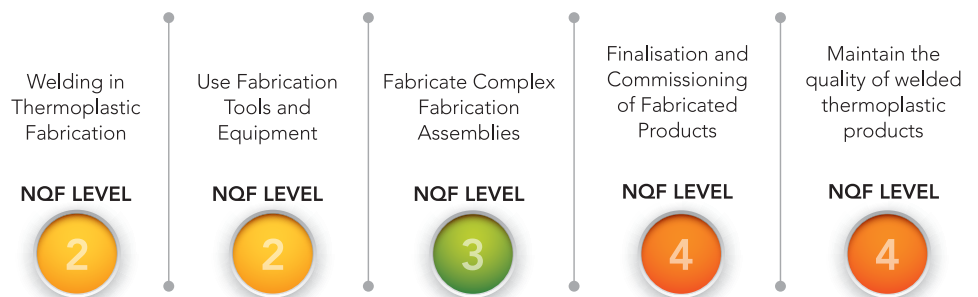

Thermoplastic Fabrication is a process which requires a large degree of manual input and expertise, particularly in the use of welding systems and methods. Such activities should be supported by experienced welding technicians and fabricators who hold the relevant qualifications supported by valid certification.

Thermoplastic Fabrication is a secondary manufacturing process which can be defined as the use and further modification of primary manufactured sheet, pipe, lining and moulded or formed profiles using compatible materials and welding methods to produce a final product or system. This can be used in conjunction with, or in isolation from, non-thermoplastic materials in the provision of a service, facility, system or process in a diverse range of Industrial applications.

Thermoplastic Fabrication is a process which requires a large degree of manual input and expertise, particularly in the use of welding systems and methods. Such activities should be supported by experienced welding technicians and fabricators who hold the relevant qualifications supported by valid certification.

The National Certificate in Thermoplastic Fabrication NQF Level 2 is the first qualification of a series on a career path involving Thermoplastic Fabrication processes. The qualifications reflect the skills, knowledge and values required by learners to be effective in the Thermoplastic Fabrication industry, whether in micro, small, medium or large organisations.

Plastics|SA offers the following programmes in Thermoplastic Fabrication:

These programmes are offered as part of the Thermoplastic Fabrication Learnership towards the National Certificate Thermoplastic Fabrication NQF 2, 3 and 4.

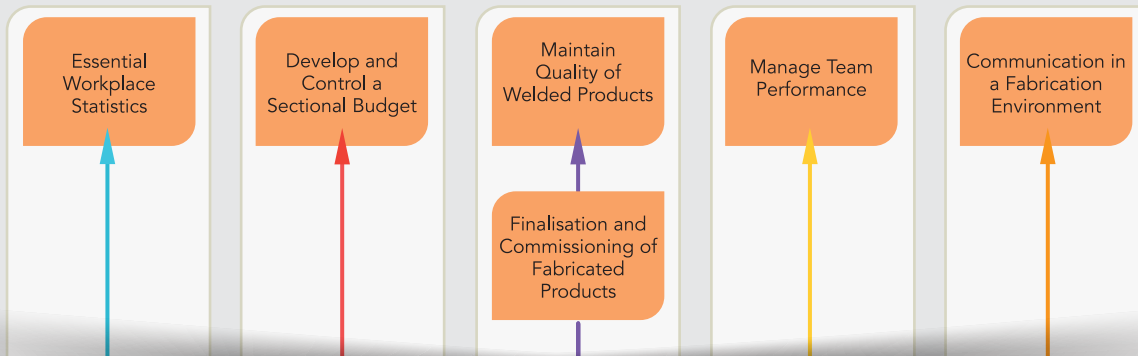

CUSTOMISED LEARNING PROGRAMMES

Every business is different and one-size-fits-all training programmes may be problematic for the unique needs of your organisation. Customised training provides practical and professional training options aligned with your organisation's mission, values and goals.

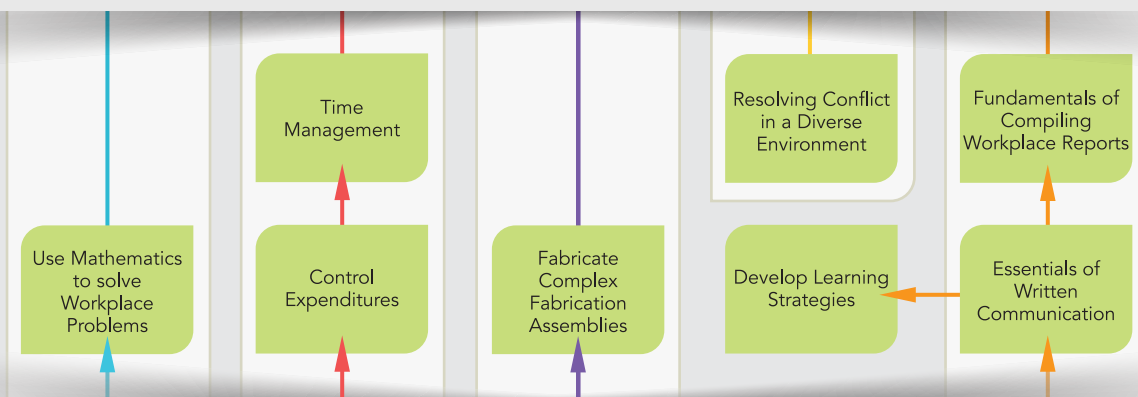

CONSULTING

Our expert training consultants and our experienced Subject Matter Experts are available to troubleshoot and provide you with the best solution to your productivity frustrations. Don't battle it out on your own – give the experts at Plastics|SA a call.

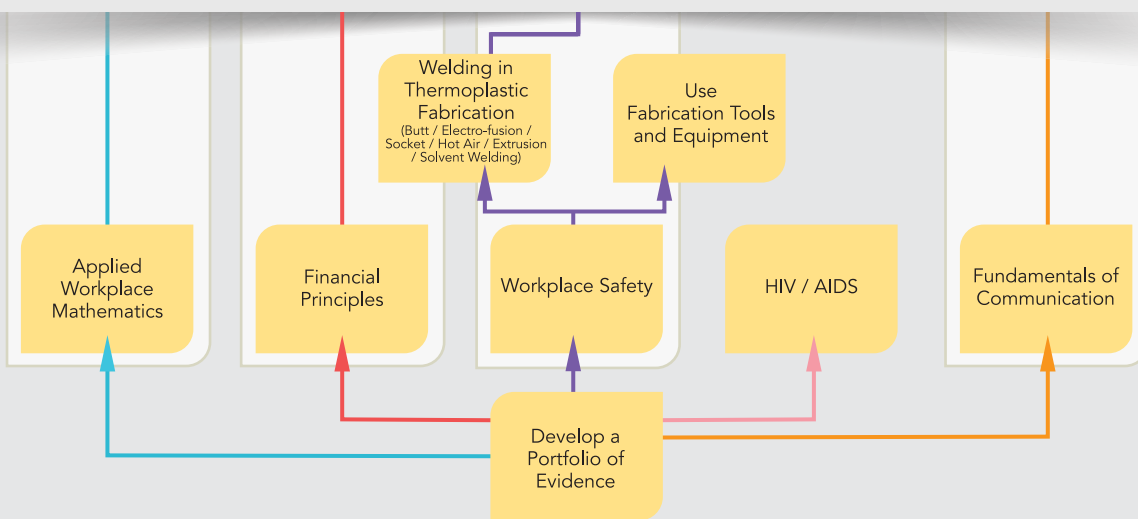

Thermoplastic Fabrication Qualification

It is recommended that all learning programmes on the level below be completed before the learner moves to the next level. It is possible to progress only with the fabrication learning programmes.
