

SA's gumboot manufacturers step up to support Clean-Up Day

THE Southern African Vinyls Association (SAVA) supported by SA's leading gumboot manufacturers, stepped up to support the many volunteers and teams who cleaned the country's rivers on River Clean-Up Day

on 15 September.

The gumboot manufacturers' donations formed part of a 'Water Warrior' kit issued to volunteers and clean-up teams. Wayne Plastics, Neptun Boot and Silver Lining

Gumboots donated much-needed gumboots to be used by river clean-up teams primarily in Gauteng and KwaZulu-Natal. Clean-up groups worked in the Gauteng region, such as Jukskei Clean-Up and Hennops

Revival, and equipped various new community-led initiatives that are underway within catchment areas, such as Tembisa, Alexandra and Diepsloot. An example of this is the collaboration with Triple P and the training of 33 participants in water awareness, monitoring and testing, where the boots were issued to these 'water warriors' as part of their PPE.
