

Exciting Career Opportunities

Plastics|SA represents the plastics industry of South Africa. The Training Division plays a major role in effecting Plastics|SA's strategy and key objectives, and is the key accredited training service provider in the development of technical skills in the industry. The following exciting positions are available:

Technical Training Officer - KwaZulu Natal (Westmead)

Technical Training Officer - Western Cape (Maitland)

The successful candidates will assume responsibility for: the presentation of technical training programmes (plastics technology and materials), facilitation of skills development programmes and assessment of learners. In addition, involvement in material development will be required.

A good understanding of the relevant legislation and regulations, adult learning principles and outcomes based training is required. Previous training experience, computer literacy and the ability to speak an African language will be advantageous.

Professional Skills and Qualifications: National Diploma (Plastics Technology) with related workplace experience or, in the absence of a formal qualification, at least 10 years' experience in various plastics manufacturing processes.

Desired Competencies:

Initiative, drive, ability to work in a team, entrepreneurial spirit, passion for developing self and others, embraces diversity, ability to think on one's feet, market-orientated, practical, creative, integrity and self-confidence.

Send your short CV to:

Western Cape: Andrew.Murray@plasticssa.co.za

KZN: Prean.Reddy@plasticssa.co.za

All candidates on the final shortlist will be required to complete a psychometric assessment.
